## NOTES

- a** Data refer to national literacy estimates from censuses or surveys conducted between 1999 and 2007, unless otherwise specified. Due to differences in methodology and timeliness of underlying data, comparisons across countries and over time should be made with caution. For more details, see <http://www.uis.unesco.org/>.
- b** A positive figure indicates that the HDI rank is higher than the GDP per capita (PPP US\$) rank; a negative figure, the opposite.
- c** For the purposes of calculating the HDI, a value of 99.0% was applied.
- d** Data refer to a year other than that specified.
- e** For the purposes of calculating the HDI, a value of 40,000 (PPP US\$) was applied.
- f** For the purposes of calculating the HDI, a value of 100% was applied.
- g** UNESCO Institute for Statistics estimate.
- h** Statec (2008). Data refer to nationals enrolled both in the country and abroad and thus differ from the standard definition.
- i** Data are from a national household survey.
- j** UNESCO Institute for Statistics estimates based on its Global Age-specific Literacy Projections model, April 2009.
- k** For the purposes of calculating the HDI unpublished estimates from UN (2009e) were used: Andorra 80.5, Antigua and Barbuda 72.2, Dominica 76.9, Liechtenstein 79.2, Saint Kitts and Nevis 72.2 and the Seychelles 72.8.
- l** National estimate.
- m** HDRO estimate based on GDP from UN (2009c) and the PPP exchange rate for Switzerland from World Bank (2009d).
- n** Because the combined gross enrolment ratio was unavailable, the following HDRO estimates were used: Antigua and Barbuda 85.6, Ecuador 77.8, Haiti 52.1, Singapore 85.0 and Turkmenistan 73.9.
- o** In the absence of recent data, estimates for 2005 from UNESCO Institute for Statistics (2003), based on outdated census or survey information, were used and should be interpreted with caution: the Bahamas 95.8, Barbados 99.7, Djibouti 70.3, Fiji 94.4, the Gambia 42.5, Guyana 99.0 and Hong Kong, China (SAR) 94.6.
- p** HDRO estimate based on GDP from UN (2009c).
- q** World Bank estimate based on regression.
- r** Data are from a national census of population.
- s** Heston, Summers and Aten (2006). Data differ from the standard definition.
- t** Data are from the Secretariat of the Organization of Eastern Caribbean States, based on national sources.
- u** Data refer to Serbia and Montenegro prior to its separation into two independent states in June 2006. Data exclude Kosovo.
- v** UNESCO Institute for Statistics (2007).
- w** Data exclude Kosovo.
- x** Data are from the Secretariat of the Caribbean Community, based on national sources.
- y** Data are from UNICEF's Multiple Indicator Cluster Survey.
- z** UNDP (2007d).
- aa** UNESCO Institute for Statistics (2008a).
- ab** UNICEF (2004).
- ac** In the absence of an estimate of GDP per capita (PPP US\$), an HDRO estimate of 2,243 (PPP US\$) was used, derived from the value of GDP for 2005 in US\$ and the weighted average ratio of PPP US\$ to US\$ in the Arab States. The value is expressed in 2007 prices.
- ad** Data refer to North Sudan only.
- ae** UNDP (2006b).
- af** Data are aggregates provided by original data source.
- ag** Calculated on the basis of GDP in PPP US\$ for 2006 from World Bank (2009d) and total population for the same year from UN (2009e).

## SOURCES

- Column 1:** calculated based on data in columns 6–8.
- Column 2:** UN (2009e).
- Column 3:** UNESCO Institute for Statistics (2009a).
- Column 4:** UNESCO Institute for Statistics (2009b).
- Column 5:** World Bank (2009d).
- Column 6:** calculated based on data in column 2.
- Column 7:** calculated based on data in columns 3 and 4.
- Column 8:** calculated based on data in column 5.
- Column 9:** calculated based on data in columns 1 and 5.
